## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art teaches the power control system for controlling the power supplied to the lighting system comprising the solid-state switching circuit connected between the power source and the second winding of the main transformer which includes: the toroidal transformer connected to the power source having the plurality of electrical transformer taps wherein each tap has the prescribed voltage value, the plurality of solid-state tap switches connected to the transformer taps and to the second winding of the main transformer to apply one of the prescribed voltage values across the main transformer, and the controller being connected to the tap switches for selectively closing one of the tap switches to produce the prescribed voltage value across the second winding of the main transformer whereby the selected load voltage is output across the first winding of the main transformer and applied to the lighting load without interruption of the lighting.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2821
